

# TRAVEL GROUP

This is one of Reading U3A's most popular and longest-established groups, having made over 300 presentations to an audience of usually between 20 to 40 members.

Some of our members have lived and worked in, or travelled to exotic places ranging from the Amazonian Rain Forest to Zimbabwe, from Alaska to Patagonia, and travelled by everything from foot, camel and canoe to hot-air balloon and Concorde.

Our Travel Group presentations enable us to learn more about the great variations between countries around the world, which are becoming so much easier to visit, and about the cultures and viewpoints of their inhabitants, some of whom may even become our neighbours as our society becomes more multi-racial.
