

Fri 17th May 2019

Due to flickr charges being increased by 100% at this time, we no longer have a flickr Pro Account. That limits us to 1,000 photographs in our free flickr account.

Links to photographs for old rallies have now been removed and the images archived by the webmaster. This is indicated on the relevant rally reports with a camera logo displaying the words **Photos Archived** displayed below the image.

If copies of any of the archived photographs are required then please contact the webmaster who will burn them to CD / DVD and post them to you at a nominal cost.
