

## **Yvonne Jones**

**You can liken life to a train journey. When you are born you get on the train and progress through various carriages until the train stops at the end of your journey. Yvonne journeyed through life, grew up and met Steve and together they journeyed on until they moved into the carriage which contained the Gobur family.**

**Another chapter of her life began, she and Steve threw themselves into the club and made many friends and ran more rallies than most people. She helped Steve when he was chairman and for the last 2 years was vice chair.**

**We met Yvonne and Steve at our first Factory open meet when we were camped next to them, we got chatting and were friends by the end of the weekend.**

**Unfortunately last year Yvonne became ill, they still kept thinking of others despite going through so much. Her train pulled into it's final station on Friday 17 May.**

**All those who knew Yvonne especially Steve are still in the carriage and it is now that we all have to support Steve as he carries on.**

**Yvonne you will be greatly missed.**

**Phil and Clare on behalf of all in the G.O.C.**
