

BRAMHALL METHODIST CHURCH

23 Bramhall Lane South
Bramhall
Stockport
SK7 1AL

Bramhall Methodist Church invites applications for a lead organist for weekly Sunday morning services with the opportunity to develop the musical life of the church.

We are a large church with a diverse range of worship and mid week activities. On a Sunday morning there are two services held in parallel. The organist will be required for the traditional service and this therefore provides an excellent opportunity for the classically trained organist.

We are fortunate in having a fine organ which is well maintained. Please see separate sheet for organ specifications.

Role Description:

- Competent organist with experience and confidence in leading congregational singing. This could be an ideal opportunity for an organ student.
- Experience in developing instrumental and vocal music within the church would be welcomed.
- Opportunities to use the organ for tuition during the week would be available.
- There are opportunities also to develop a programme of mid-week recitals.
- Although the role with regard to Sunday mornings is voluntary, income can be derived from weddings and funerals and there is also potential to augment this through use of the organ for teaching.
- A small team of deputy organists is available to assist.

More information about the church in general is available on our website:
