

If you can use your Operating System to perfection,  
then your computer will not throw a rejection.

If you can in Excel perform Formula Calculations,  
without getting any failed observations.

If you can with your computer Surf the Internet,  
without becoming, a total cyber wet.

If you can do on line gambling on your laptop,  
then you are aiming for the jackpot.

If you can use your Power Point Presentation,  
without showing any faults of creation.

If you can spot the difference of Hardware,  
and Software, then you're almost there.

If you can avoid downloading any cookie,  
then you must be very lucky

If you can use AVG and a Firewall,  
to stop nasty viruses accessing all.

If you can do anything with your Scanner,  
then you're using it in the correct manner.

If you can stop Trojan Spyware from Phishing,  
then your documents will not go missing.

If you can keep your Web Cam in focus,  
without getting in a hocus-pocus.

If you can use an imported PDF File,  
and not get your computer in a rile.

If you can make a Movie Maker DVD,  
and play it through your main TV.

If you can copy to an External Hard Disk,  
so losing your data will not be a risk.

If you can with your Word Processor write,  
and not burn midnight oil in the night.

If you can in Publisher make a Greetings Card,  
not finding it complicated or too hard.

If you can miss Blue Screen of Death on your system,  
then you are computing with much wisdom.

If you can use search engine Google,  
without getting lost or being too frugal.

If you can download all your CD music,  
without having to pay too much to use it.

If you can print off your personal letters,  
without having to use typesetters.

If you can address and print off an envelope,  
without a help sheet guiding note

If you can master Word 2007 ribbon menu,  
then any Word Processing you can do.

If you can Email family and friends far away,  
and convey to them what you have to say

If you can master Paint Shop Pro correct,  
then all your photos will be perfect.

If you can activate your System Restore,  
to recover lost programmes once more.

If you can trace 500 years of Family Tree History,  
then your ancestors will not be a mystery.

If you can surf the world of Google Earth,  
and then use it for all it's worth.

If you can do all these things you seek  
then you are a "**Competent Computer Geek**".
